DEATH OF B. H. NORRISS .- Our readers will remember that about a month ago we chronicled the fact that Mr. B. H. Norriss, Keeper of the Fair Grounds, fell from a wagon on Hillsboro road and sustained serious and painful injuries. Since that time Mr. Norriss has been in bed, suffering from all the pain that could be incident to a fatal wound, but on yesterday death came to his relief.

KNIGHTS OF PYTHIAS.

SECOND DAY'S PROCEEDINGS.

The Grand Lodge was called to order by the G. V. Chancellor, W. M. Simpson, in the Chair. A num-ber of Representatives from Lodges not present yesterday having arrived last night, were admitted and initia-ted in the Grand Lodge Degree. The first business under considera-

tion was the adoption of a new con-stitution and by-laws for the govern-ment of the Grand Lodge and suborment of the Grand Lodge and subordinate Lodges in this jurisdiction,
which changes the time of meeting
of the Grand Lodge from January to
June, and electing Representatives
in May, instead of December. It also
allows Lodges to elect any Knight to
the office of V. C. and Prelate, and it also makes considerable changes in laws of the order.

At 11 o'clock the Grand Chancellor stated that the special order at this hour was the election of officers for

the ensuing year.

The election being held, the result was as follows:
Grand Chancellor.—W. M. Simpson, Centre Lodge, No. 3, Raleigh.
Grand Vice-Chancellor.—Edwin Kerr, Clinton Lodge, No. 14, Clin-

Grand Prelate.—W. F. Campbell, Cumberland Lodge, No. 5, Fayette-Grand Banker.-Thomas Powers,

Grand I. G.—B. F. Briggs, Contentnia Lodge, No. 12, Wilson.
Grand O. G.—W. Murry, Ruffin Lodge, No. 6, Goldsboro.
P. G. C. Samuel Merrill was elected Representative to the Supreme

Lodge for two years.

The installation of the above officers will take place to-day.

At 3\(\frac{1}{2}\) o'clock, the Knights, in full dress, preceded by the Citizens' Cornet Band, paraded the principal streets of the city, and made quite a handsome turnout. They were certainly as fine a looking body of men as we ever saw in procession, and as we ever saw in procession, and clothed in the gaudy regalia of the order, made a very imposing appearance.

THE BANQUET. At 8 o'clock the Grand Lodge met at the National Hotel, where they were met and welcomed by that prince of landlords, Colonel Brown. prince of landlords, Colonel Brown.

THE ELECTION FOR MAYOR .- The City Commissioners met at the May-or's office last night for the purpose of electing a Mayor to fill the va cy occasioned by the death of Mayor Holden. In presenting the names of candidates much speechifying was indulged in. On the first ballot Gen. Gorman

received 4 votes, Miller 1, W. H. Harrison 2, Major Basil C. Manly 1, and John Nichols 1. On the second ballot Major Manly's vote increased to 4, Gorman 4, and Miller 1. It was for its inmates that the noble charity presented by the merchants of Petersburg last Christmas intended, in acknowledgement of which the people and press of the of which the people and press of the State have returned thanks. We trust in furtherance of the objects of the Gift Enterprise, that many tickets will be purchased in Petersburg. The low price places it in the power of nearly every citizen to buy one, while the chances of drawing a handsome prize are great, and the con-sciousness of contributing to a char-itable object will, of itself, be suffi-cient return for the money."

LEGISLATIVE SUMMARY.-In the Senate yesterday the Committee on Agriculture reported favorably on the bill repealing the law giving \$1,500 to the State Agricultural Society, and \$50 to all County Agricul-tural Societies, with the amendment that the law do not go into effect until Jan. 1st, 1876.

until Jan. 1st, 1876.

A warm discussion occurred in the Senate over the bill of Mr. Bell to appoint an auditing committee of three gentlemen of the city of Newbern, in order to remedy the grievous financial management under which the good people of that town have been laboring. Mr. Bell warmly advocated the bill, which was opposed by Messrs. Cantwell and Tucker. During the discussion. Mr. Bell posed by Messrs. Cantwell and Tuck-er. During the discussion, Mr. Bell read a certificate from Mr. James C. Harrison, Republican Commissioner of the county of Craven, who, under the seal of his office, states that A. Hahn is surety to the Clerk, Treas-urer and Sheriff to the amount of \$196,000, while he only justifies to \$32,000. M. Hahn is surety to the 1st. The amount of taxable property given in by the Messrs. Hahn for the year 1874: real estate, nothing, personal property and stock of goods, \$1,800, which was increased by the Commissioners to \$6,150. Mr. Bell asked if this was not sufficient evidence of the necessity for the relief prayed? The bill passed is several readings by a strict party yote.

THE MEETING THAT DIDN'T TAKE PLACE AT THE METROPOLITAN HALL LAST NIGHT.—Placards were posted in the city yesterday calling a meet-ing of the citizens at Metropolitan Hall last night to express sympathy with the recent outrages in Louisiana, and a number of speakers were announced. Quite a number of citizens gathered at the hall, but no one came forward to father the meeting, no speakers appeared upon the stand, and no one seemed willing to take hold of the opportunity to expatiate. Doubtless the ghost of Grant, backed Sheridan, DeTrobriand and a host of bayonets, cast its shadow over the scene and stilled the tongues of those who have learned "to-look to Washington" in the hour of action, and the assemblage adjourned as in-formally as the call had been.

The Louisiana Federal outrage has our hearty sympathy, but "no more an' you love me, Hal," of such efforts as those of last night.

THE FIRST SHAD OF THE SEASON. -It is now about our time to cry out the first shad of the season, as the Wilmington and Newbern papers have already had a say. Col. C. S. He orders by express both from Newbern and Savannah

CONCERT AT THE BAPTIST COL-LEGE.—The semi-annual concert by the young ladies of the Raleigh male Seminary will take place this evening at 7½ o'clock. The programme promises a most pleasant evening's entertainment. We acknowledge an invitation to be pres ent, and will endeavor to be there.

REV. JACOB HENRY SMITH, D. D. -We are pleased to learn that this eloquent and popular divine will preach a series of sermons in the Presbyterian church of this city. commencing this evening at 7½ o'clock. The public generally are invited to attend.

There is great uneasiness on our Indian border, or rather in the Indian country, beyond the Mississippi, extending from Canada to Mexico. It is, therefore, but just to the United States that it should endeavor to keep the peace. It does not make much matter that, in the North, Orville Grant has obtained the exclu-sive right to trade with the redskins. If he did not cheat them, somebody else would. The Indian agents out there are nearly all on a level as regards morality. In the Black Hills, we believe, the Government is trying to prevent invasion. So great, nevertheless, is the gold fever and the silver mania now setting in as a consequence of recent discoveries in Nevada, that lawless characters intent on gain at all risks, will be as hard to control as they were in 1849.

[For the Daily News. New Counties.

Messrs. Editors: The people of Johnston county are much surprised Johnston county are much surprised at some of the special legislation in the lower house during the past week. They are surprised to learn that, in the short space of four or five days, their county boundaries are broken up and two townships taken away and two others despoiled. They are surprised to learn that in this incredable short time their Legislature has despoiled their county, together with the honorable old counties of Sampson and Wayne, and ties of Sampson and Wayne, and of the portions so taken, made the new county of "Cohara," named after two miserable muddy swamps in the upper portion of Sampson— "Big Cohara" and "Little Cohara." This bill, as we learn from the NEWS' This bill, as we learn from the News' reports, was warmly advocated by Mr. Bizzell, of Johnston, and Mr. Bryan, of Sampson, and hastily run through at their request, opposed only by three colored members. We also learn from the same reports that this measure was pushed through at a time when only sixty-two members were in their seats. We protest against any such legislation.

Our representative, Mr. Bizzell, well knew that he was not reflecting the wishes of eight-tenths of the peo-

the wishes of eight-tenths of the people he was then proposing to represent. We assert that a large portion of the people living in the section proposed to be cut off express themselves as being dissatisfied, and many who signed the petition to the Legis lature for a new county were in-fluenced to do so under promises that

cannot be complied with.

The bill having passed its several readings in the lower House, we ask the Senate, the honorable Senate of North Carolina, to check this and all such special local legislation. See where we are drifting. See how unequal representation now is in the lower House. Form a few more new counties "or legislate neighborhoods" into counties" entitled to their representatives, and old Johnston will sentatives, and old Johnston will send but one representative. The large and wealthy counties of New Hanover, Craven, Edgecombe, War-ren, and Mecklenburg will have only one representative. Wake, even Wake, with her four representatives and all her wealth and talent, will be entitled to only one representative, the same as the little county of Graham with her 211 voters, or the new county of (the) "Cohara"

(swamps.)
We hope the Senate will look after this and all other new counties proposed to be formed this session. We call on our trusty Senator, L. R. Waddell, and the Senators of Wayne and Sampson, not to suffer their counties to be despoiled in this manner. We call on the honorable Sena-tor from Mecklenburg, R. P. Waring, once a citizen of our county, to pro-test against this injustice.

On motion of Mr. Bell, the bill to amend the charter of the city of Newborn appointing an addition of the second second

bern, appointing an auditing committee for that city, was taken up.

Tucker, colored, said the majority of the citizens of Newbern did not want this bill passed want this bill passed.

Mr. Bell said the tax-paying citizens of Newbern wanted this bill to protect them against the mal-admin-istration of the financial affairs of that city at the hands of those who only give straw bonds, leaving the city at the mercy of those who are in no way responsible for their conduct. Newbern was a nest of Radical corruption—we were nursing a New Orleans in our midst, and the honest Orleans in our midst, and the honest people only asked an honest auditing committee in order that their finances may be saved from this corrupting influence. He was surprised to find any Republican on this floor who had the audacity to defend the action of the corrupt officials | who had ruined and impoverished that city.

THE N. Y. Herald argues that Andy Johnson "will be a power in the Senate. His experience and knowledge of legislation and government would be of great value to the country, and probably no man in Tennessee could be of more service to the Democratic party."

THE Washington correspondent of the New York Tribune is urging the investigation of the means used to secure the original subsidy granted to the Texas Pacific Railroad. The correspondent gives the names of the men, who were prominent as lobbyists in that behalf. Among these names we notice that of C. C. Pool, of this State. What possible influence he could have with any members of Congress, other than his brother John, who was then a Senator from this State, it is exceedingly difficult to imagine.

ANOTHER SLANDERER CON- lawyer and a gentleman of irre-VICTED.

Shortly after the publication of Sheridan's infamous banditti dispatch, one Gen. Merrill, known to the people of upper South Carolina by reason of the number and enormity of the wrongs inflicted upon them, some three years since, by the soldiery under his command, moved by an ignoble ambition to equal, if not excel his chief in mendacity, published a statement, professing to give particulars of outrages committed upon Republican voters in Louisiana by the White Leagues. These statements came to the attention of certain residents of Shreveport, men of Northern birth, who had entered into business there, and they have published a card denying in the plainest and most emphatic manner the statements of the mendacious official and declaring from their personal knowledge that there is and has been no oppression of the negroes and that the industrious obtain paying employment without difficul-

A FAIR OFFER.

The Democrats of Louisiana must have the fullest confidence in the justice of their cause. The report of the sub-committee appointed by the House of Representatives to investigate affairs in that State, of which Mr. Foster was chairman. clearly and emphatically declared in their favor. Not satisfied with that report, which was a stinging comment upon Grant's unlawful interference in the organization of the State Legislature, a new committee has been dispatched there, compos ed of members more radically Republican in their sentiments, the object being to secure a report which would place the conduct of the administration before the country in a less unfavorable light. Notwithstanding the unfriendly composition of this last committee, the Conservative members of the Legislature, in caucus assembled, have adopted a resolution requesting the committee to make a thorough examination of the returns of the election of 1874 and upon such returns declare what members were regularly chosen. This act of the Conservatives is altogether commendable and is the very strongest possible evidence of the sincerity of their belief that the State was carried for the Democracy in the last election. Nothing but a sense of tlemen to tender the solution of the veratious question of legitimate rule in Louisiana to a committee composed of three Republicans and one Democrat; and the offer is an all-sufficient answer to the charges of fraud and intimidation which the Louisiana Democracy.

Among the deaths announced in Paris recently is that of Baron Corbineau, at the age of eighty-three.
The Baron lost his leg at Wagram, and in the picture at Versailles he is to be seen opposite the Emperor, being carried away on a stretcher.

It is stated that the supply of black walnut, our finest native wood, which was so nearly exhausted, and an estimate is made that the stock of Kentucky, Missouri, West Virginia, and Ohio, will not be equal to a full demand for the years to come.

THE RECENT SENATORIAL ELECTIONS.

The people of the country have just cause to congratulate themselves upon the changes made in the composition of the United States Senate by the elections recently held in several of the Northern and Western States. Especially has the Democracy of the land cause for pride and gratification in the additions made to the party strength in that body.

Foremost among those whose talents and virtues have had recognition at the hands of grateful constituencies, is the Hon. Allen G. Thurman, of Ohio, who for many years has been the acknowledged leader of the Democracy upon the floor of the Senate. Mr. Thurman's reputation is much more than National, and he has won a warm place in the hearts of the people of this section by his earnest, manly defence of their rights and privileges. Not less gratifying to the party throughout the nation is the reelection of the Hon. Thos. F. Bayard, of Delaware. Mr. Bayard has brains, pluck and experience, and has for years divided the honor of the leadership of his party with Mos Sherman. His recent return to the Senate is an honor most richly merited and most generously bestowed. The Hons. W. W. Eaton, of Con-

necticut, and R. E. Withers, of Vir-

ginia, have never before seen service in the National Legislature, but they are universally acknowledged to possess in an eminent degree all those qualities of mind and heart which fit them for acceptable service in the Senate. Senator Stockton, of New Jersey, is succeeded by ex-Governor Randolph, an eminent proachable integrity. Senator Fenton, of New York, is succeeded by Hon. Francis Kernan, of whom it is only necessary to say that he goes to the Senate with the strongest endorsement of the Hon. Samuel J. Tilden, the newly elected Democratic Governor of the Empire State, while Senator Pratt, of Indiana, a Republican, gives way to Junge McDonald, one of the foremost lawyers and purest men of the West. The Hon. William A. Wallace, Senator elect from the State of Pennsylvania, will add strength to our delegation. When it was ascertained that the Democracy had carried the State and secured the legislature for the first time in many years, public opinion, outside of the State, seemed to settle upon Mr. Buckalew, or Judge Black, as the probable choice of the party for Senator; but the Democracy of the State have deemed Mr. Wallace's services of such value that his claims to recognition and pre-

ferment could not well be ignored. He has been for many years the Chairman of the Democratic State Executive Committee; and in that position has done his party some signally valuable service. It is pleasant to see in his case, as in Judge Kernan's, that the acknowledgments of his worth are not confined to papers of his own political faith. The Philadelphia Ledger, independent, and Press, Republican, bear cheerful testimony to his integrity and ability, declaring that he has all the qualities, necessary to make a Senator of whom the people of Pennsylvania may be proud. In Missouri, Carl Schurz is displaced by Gen. F. M. Cockrell, a gallant officer of the Southern army, in the late war, and a lawyer of the highest ability. Gen. Cockrell is an elder of the Presbyterian Church; and, as the Southern Home quite aptly remarks, "will be a Christian statesmen of a different type from Colfax, Harlan and men of like character.' Ex-President Johnston, too well known to need more than men-

tion, succeeds Brownlow, as Senator from Tennessee. These we believe, constitute the Democratic Senators elect. Of the Republicans chosen, Paddock, of Nebraska, who was supported by the Democrats, defeated General Thayer, the regular nominee of the Republican caucus, and Dawes has been chosen to represent Massachusetts in the stead of Washburne. right could have induced these gen- In Michigan Judge Christiancy has done common decency and the country good service by the defeat of the drunkard Chandler, a result accomplished by Democratic support. The long contest in Rhode Island has been decided by the selection of Gen. A. E. Burnside, a have been so freely preferred against | prominent officer in the Federal army in the late war, and since that time Governor of the State for two terms, we believe. In West Virginia and Minnesota no decision has been reached. The former will send a Democrat to succeed Boreman, but it is impossible to predict the result in the latter. The contest now is between Ramsey, present incumbent, and Ignatius Donel-

ly, a former member of the House

of Representatives.

An examination of the names of the Democratic Senators thus far chosen will, we think, justify our declaration that the party has great cause for gratification in the selections made. They are, without exception, men of such ability and private worth as will give them positions and influence in the Senate.

[For the Daily News.

New Counties. Messrs. Editors :- I have been examining the census and I find that the making of another new county is likely to deprive Wake of one of her present members. She has already been reduced to four members, being one member for two thousand voters, while a certain new county has a member with only 211 votes—that is the Legislature a voter in Wake or Orange is worth only one-tenth as much as a voter in some other more favored localities. Will you favor me with the votes of the members from this county on the proposition which I see passed the lower House the other day to make still another new county? The people would like when a proposition was up, which may result in stripping our good old county of one of her already scant representation, and putting her on a still greater inequality with other parts of the State. I write for information because you failed to publish A VOTER. Jan. 26th, 1875.

[We regret we cannot inform our correspondent, as the ayes and noes were not called. The vote on the final reading of the bill was a small one on so important a matter, being only 53 to 9.]—EDITOR.

THE NEXT SPEAKER,-"Harry Scratch" (Burton) writes from Washngton to the Norfolk Virginian: "I conversed to-day with many prominent politicians and member of Congress, and it seems to be the general impression that the contest for the Speakership of the next House of Representatives will surely be be-tween Hon. M. C. Kerr, of Indiana, and Hon. Fernando Wood, of New Walker stood any chance, and was told by some of the 'knowing ones' that his (Walker's) name had dropped from the 'chance-list.' But of this no one can speak definitely at present. It is very generally be-lieved here that the Hon. Mr. Whitehead, the member from the Lynch-burg district, will be chosen as the are earnestly working for his elec-tion, and confidently hope for suc-cess. He is certainly well qualified cess. He is certainly well qualified for the position, and would be an ex-cellent Clerk."

Was there ever such a farce as the Pacific Mail investigation? Here is committee empowered to send for persons and papers; having all the witnesses it wants within reach; on the track of part of the money used in bribery, and it traces that money to a lot of third persons, and gets, in all the time it has been sitting, no further. Irwin's testimony, from which so much was expected, is in and amounts to nothing. Schumacker's is worth quite as little, and as to the hunt after the newspapers it was the poorest scent opened up yet. Let us have at least one Con gressman, if only by way of variety Common sense tells us that into Con gress the money went. Who get it That is the conundrum the people want answered. The money that was "in the air" when Irwin first entered upon his campaign has only come to earth in small driblets. A great portion of it is still "in the air" for aught the committee have yet found out,-Balt. Gazette.

Last year, in Dundee, Scotland, 502 women were punished for drunk-enness and 816 for crime produced by drunkenness: in other words 1,318 women, or 2½ per cent. of all the women of Dundee are such drunkards that the officers of the law must deliver them to the judge and the judge must fine or send them to prison. How is that

Partisan Lukewarmness in the Re-publican Caucus at Washington— The Shadow of the Third Term Desking the Entire Darkening the Future.

The Washington corresdondent of the Herald, writing under date of the 24th, referring to the nightly caucusing of the Republican mem-hers of Congress with a view of setling the affairs of the South and of

the nation, says:

"As to a policy, no agreement was arrived at, and it is very well understood that a large number of Repubcans, and those the ablest and most ensible men of the party, have de-ermined to refuse to bind themselves support or to vote blindly for any leasure which the caucus may hoose to adopt. If the caucus rule insisted on they will not remain. is possible, therefore, that even ne prohibition or dilatory motions may not be carried out, if any vio-ent measures should be adopted by caucus and carried into the

ouse.
"There is still talk of a strong clicy and of bills for two years' apopriations for the army, for provisions for the army, for provisions for the army, for provisions for the army, for five Southern al governments for five Southern ates, for a revival of the Martial aw act and for the establishment of new revolution in Arkansas; but he courage of the independent Re-publicans increases, and it is just now oubtful whether such a series of leasures, or any one of them, can be arried in the House. It is noticed hat the Senate caucus, which, for a while ruled and began to dictate a olicy, has assumed a less awe-inspirng attitude. The Vice-President. who occupies an independent posi-, is busy counseling moderation, and the great success in the country of his letter and of other expressions of his well known opinions against a third term and in favor of a conciliatory policy has produced a wholesome effect here. There are even a few people bold enough to whisper that the Republicans have made a blunder in not impeaching General Grant, and, though such a thought is not openly expressed, it is very generally confessed by the ablest members of that side that the President s almost the sole obstacle in the way f a successful campaign in 1876. It is seen that the Democrats are not united on a general policy for the country and that every attempt to unite them breaks down. "The only oint on which they can hope to ap-eal to the country without fatal difences among themselves," said an

inent Republican yesterday, "is on-interference in the South, and eallow them to make that point ev will beat us without doubt, but we were wise we should cut that aund from under them. We could ry well afford to repeal the enforcent acts which are the only excuse or Federal interference in the South, and then we should be able to face the Democrats and defeat them, for hat and the third term are the only points on which our own party would split, and on which the country yould not support us; and withou Federal interference in the Southern

becomes ridiculous."

States the third term fades away and

Gordon Again. The Senator from Georgia considers the Radical Senators in Congress as so many ten-pins set up for him to knock down at pleasure. Gordon makes a ten-strike every time he propels a ball. A few days ago Mr. Howe burst ont into statesmanship in the Senate, and talked about the anarchy, murder and crimes that prevailed in Louisiana. Mr. Gordon ose in his seat and mildly and affec tionately inquired of the enraged speaker how it was, if the government of the State, the judiciary, and all the machinery of the State were in the hands of the Republicans, backed by a Republican President, and a majority of the people suppor-ted Kellogg, that the courts, aided by the army of the United States, did not bring these criminals to justice,

and bring order out of chaos. This conundrum was acknowledged. Howe winced, but finally got out of the dilemma by making the triumphant and categorical answer that he didn't wish to be bothered. A complete reorganization of the New York detective system has been

found necessary. The present force has been disbanded, the men either ismissed or transferred, and new rules adopted. Personal and political preferences are said to have been too strong for the party of thorough re-formation even, and a good deal of the old system has survived.

A Chicago shirt-dealer has given up coaxing and bullying the public, and despairingly announces on a placard, "Buy, or I will bust."

This life of gayety does not seem to embarrass southern women in the least. They are, from their tenderest years, educated in social calisthenics up to this point of endurance. South-ern children are oftener in the parlor than inmates of the nursery, and pass the hours which should be cra-dle-rocked among the evening guests, tolking, cating and disting with talking, eating and flirting with amusing grace and maturity. Their complexions suffer, as does their health in the after years, and the rush to cosmetics, to cover up defi-cioncies in coloring is as natural and

ciencies in coloring, is as natural and necessary as their use of quinine or health-sustaining medicines. But they have the easy, elegant, uncon-sciously-graceful manners of wellbred women of the world, whom no exigency surprises, and who look upon the world as hung with roses for their especial plucking. You never see a Southern society-girl act awkwardly, or look miserably out of place, as did poor Joe Gargery when dressed in his Sunday clothes. They act natural, because they are as much in their element as are swans on the breast of the river.

In Holland, a gentleman who had a picture by Leonardo Vinci on a panel, entrusted it to a restorer to be cleaned. The restorer sawed the panel so as to leave the picture on a panel so as to leave the picture on a thin sheet of the wood, and then em-ployed a talented young artist to copy the picture on the thicker piece. He returned the copy to the owner as the original picture "fresh-ened up," and the cheat only came on when he offered the original for solo in Parise et a febulare price sale in Paris at a fabulous price.

The Senate of the United States is cogitating the admission of Colorado and New Mexico, with a view to secure four Senators to the Radical ring in that body. It is true Colorado is at present Democratic, but then the administration has the power to alter, amend or abolish, vide Louisiana.

California has a population of 750,-000, with a public school income of \$2,478,000, equal to \$3.30 per head, for the maintenance of the schools. The Astor House in New York has been closed for repairs.

SCHENCK'S PULMONIC SYRUP, SEA WEED FONIC AND MANDRAKE PILIS.—These deservedly celebrated and popular medicines have effected a revolution in the healing art, and proved the isliacy of several maxims which have for many years obstructed the properson of medical science. The false supposition that "Consumption is incurable" deterred physicians from attempting to find remedies for that disease, and patients afflicted with it reconciled themselves to death without making an effort to escape from a doom which they supposed to be unavoidable. It is now proved, however, that Consumption can be cured, and that it has been cured in a very great number of cases (some of them apparently desperate ones) by Schenck's Pulmonic Surup alone; and in other cases by the same medicine in connection with Schenck's Sea Weed Tenic and Mandrake Pills, one or both, according to the requirements of the case.

Dr. Schenck himself, who enjoyed unin-

both according to the requirements of the case.

Dr. Schenck himself, who enjoyed uninterrupted good health for more than forty ye rs, was supposed, at one time to be at the very gate of death, his physicians having pronounced his case hopeless, and abandoned him to his fate. He was cured by the aforesaid medicines, and, since his recovery, many thousands similarly affected have used Dr. Schenck's preparations with the same remarkable success.

Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck unless patients wish their lungs examined, and for this purpose he is professionally at his principal office, Corner Sixth and Arch Sts., Philadelphia, every Monday, where all letters for advice must be addressed. Schenck's medicines are sold by all druggists. janl-b&Wim

Farmers of North Carolina.

GENTLEMEN—Two years ago, at the request of a number of the leading planters of your State, I endeavored to form what was then known as the North Carolina Fertilizer Company. The main object (on your part) in engaging in the enterprise was the reduction of the then prevailing high prices for fertilizers by forming a Farmers' Manufacturing Company, and said Company being owned and controlled by you, thereby be enabled to obtain a certain amount of the production at cost price. After spending some three months in thoroughly canvassing those sections of the State in which fertilizers were largely used, a subscription to the stock was obtained, of which we have no cause to be ashamed. Unfortunately, when we met for organization, the faise reports, dc., of those who were interested in preventing its formation prevailed, and the enterprise was abandoned. I was afterwards frequently solicited to start once more, and many offers and pledges made, but I have refused, being fully convinced of failure, Although I have refused to attempt the re-formation of said company, yet I have single-handed carried on the fight we jointly began for lew prices, being fully convinced that the true policy of the dealer is large sales and reasonable profits.

In introducing Guanahani Guano last year, consistancy to this policy was shown, although the chemical endorsement from the highest authority in the land entitled the Company to charge a much higher price than the \$40 per ton at which it was placed on the market.

It was expected that this fight for low prices would raise great opposition from parties the market.

It was expected that this fight for low prices would raise great opposition from parties interested in preventing the same, but hardly that it would be carried on with such a bitter spirit as witnessed during the past year. I desire no better vindication than the certificates contained in the circular of that Company, showing as they do more general satisfaction to the planting public than any fertilizer that has ever come under my observation. certificates contained in the circular of that company, showing as they do more general satisfaction to the planting public than any fertilizer that has ever come under my observation.

That a high standard of knowledge in regard to agricultural chemistry does not exist among the farming public, there is no doubt; in fact, all admit it; but while regretting the same, hope for better days to come.

The above being true, we must expect to find opposition to new ideas, until the time when practical demonstration of the plantation shall drive out the existing prejudice for eld things.

Such a prejudice existed last year th regard to Guanahani Guano. Many did not even grant it a smail trial or test, from the fact that it did not emit the odor by which they have been in the habit of judging of the good qualities of a fertilizer. But sew are aware that forms of nitrogen or ammonia, other than a volatile condition, exist, and that two, or three of said other forms are, for many reasons, more valuable for agricultural purposes than even the salts of ammonia in Peruvian Guano.

Again: but sew are aware that phosphoric acid or phosphate of lime exist in a natural guano in different forms from those contained in manufactured settilizers. The farming public have been taught to look for soluble, precipitated and insoluble phosphoric acid, and have been left entirely in the dark as regards neutral phosphoric acid, pronounced by all chemists, and estimated in all tables of agricultural value of such ingrediens, to be worth the same as the soluble phosphoric acid of the manufactured article. article.
Such prejudices as these operated more against the introduction of Guanahani Guano than all others.

no than all others.

In order to eradicate these false ideas or prejudices, I appeal to that almost infallible verdict that comes from the plantation test, and refer you to the certificates contained in the circular named.

These certificates are from different sections of the States of North Carolina, Virginia and Maryland, where Guanahani was used during the past year.

In North Carolina they will be lound, on examination, to extend from Gatesville in the East to Charlotte in the West and from the first agriculturists of the different sections. sections.

The judgment in these cases has not been made on account of a fine growth of weed or stalk, but from final results—as shown by the arrount of grain or seed cotton—and I know of no better mode of judging than "By their fruits ye shall know them."

With respect, yours truly,

WM. R. GRIFFITH

A NEW ENTERPRISE

Having resigned as General Agent of the Guanahani Guano Company after my re-election, I desire to call your attention to the new enterprise in which I am engaged as General Agent, and to inform you that I intend to still carry on the fight for low prices. Mesers. Thos. Branch & Co., of Richmond, Virginia, having secured a large deposit not covered by the grant to the other company operating the same islands, I now offer you AT A REDUCED PRICE THE SAME GUANO FROM THE SAME ISLANDS as that I introduced to you last year under another name.

is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, until it is now universally recognized as one of the most uniformly reliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the fertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. WHANN'S RAW BONE SUPER-PHOSPHATE:

Read the following of inions of some who have used WHANN'S RAW BONE SUPER-PHOSPHATE:

Messrs. King, White & Shaw:
Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone Super-Phosphate, I unhesitatingly say that by comparison with other fertilizers during the last three years, I am satisfied that Whann's has turned out better crops for me than any other, and I expect to continue to use it.

Yours truly,
JOHN E. THOMAS. Messrs. Williamson, Upchurch & Thomas, Raleigh, N. C.:

Dear Sirs:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's Raw Bone Super-Phosphate. The land was poor, and the s-ason dry, but the crops surpassed our extectations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLS, Supt.

Messrs. King, White & Shaw:

Dear Sirs:—This is to certify that we have used Whann's Raw Bone Super-Phosphate the past season, and are as well pleased with it as any we have ever used—that is on cotton, we did not use it on anything else.

Yours very respectfully,

J. J. THOMAS.

I have been using Whann's Raw Bone Super-Phosphate and other kinds of manufactured fertilizers for several years, and feel confident in saying that I prefer Whann's to any other. I cheerfully recommend it to be a first-class fertilizer, and expect to continue its use as long as its present standard is kept up.

The Civil Rights Bill About to Pass from the Control of Butler.

WASHINGTON, Jan. 27-House. The caucus resolved to instruct the Judiciary Committee to report the Civil Rights bill as the regular order. This takes the control from Butler, and staves the action off for two weeks. The best parliamentarians say there is machinery to push it over until the 4th of March.

LATER. Butler, of Massachusetts, as a question of privilege, called up the mo-tion made by him last session to reconsider the vote by which the Civil Rights bill was referred to the Judi-

ciary Committee. A point of order was raised, but the speaker decided "on the authority of that day's journal of proceedings" that the right existed, and thereupon the Democrats fell back upon the policy of fillbustering, and the House s now engaged in that business.

Foreign News. MADRID, Jan. 27.—Prince Direve-ro commands the 2nd corps of the

army of the North. It is reported that many Carlists are surrendering, that Don Carlos has shot several officers for treason and a great battle is expected near Peratta.

MIDNIGHT DISPATCHES. FROM WASHINGTON.

Congressional and Other Matters. WASHINGTON, January 27 .- The words "in order," inserted in caucus action, was not understood by many members. It appears that the Ju their bill, and that a motion to reconsider was pending, which Butler, chairman of the committee, could call up at any time. This he did today in order, as directed by the

In the Senate Scott, of Pennsylva-

nia, from the Committee on Claims, reported adversely on the bill to fa-cilitate and reduce the expenses of taking testimony in behalf of claimants to be used before the Commisners of Claims, and it was indefinitely postponed. He said the objects of this bill had been already supplied by the House bill,

Patterson, of South Carolina, presented concurrent resolutions from the General Assembly of that State for an appropriation of one hundred thousand dollars for the improvement of Charleston harbor. Com-

The Louisiana question was resumed, and Thurman occupied the balance of the day. He reviewed at some length the circumstances attending the election of 1872, as well as the last election, and read frequently from the report of the Senate committee in regard to the frauds commented upon the message of the President in reply to a resolution of the 8th instant, and said a paper more full of omissions of material facts never emanated from the Chief Magistrate of this country. He argued that the dispatches of Sheridan were one-sided, and did not tell the whole truth. He replied to the charges of Southern outrages, and said the great majority of homicides in the South were committed by blacks upon blacks, and were not by whites upon blacks, as had been charged. In conclusion he said it was a bad thing to assassinate a man, but a worse thing to assassinate the constitution of a State. These acts of the military in the heart of free institutions in this

From Rev. Dr. Baird. Secretary Board of Publication The Xanthine is the only hair dressing have ever used which removed the dandruff from the sc 'p and made my hair soft and phiable. It has also restored my hair to its original color, and by occasionally using it as a dressing I have no doubt will preserve the color. E. T. BAIRD. Richmond, Va., July 27, 1874.

CHARLOTTESVILLE, VA., June 12, 1874.

Dear Sir:—I have used the Xanthine for one year, and find it answers the purpose it is prepared for. I had used other preparations for the same purpose, viz: the restoration of the hair to the natural color; but was compel ed to abanden them, because they affected my system, gave me rheumatism and neuralgia. Xanthine, however, has not had this effect; on the contrary, has been beneficial in this respect. Hoping that you may be successful in its sale,

I am, your truly.

I am, your truly, From the Rev. Charles H. Read, D. D., Pastor Grace street Presbyterian Church, Richmond, Va. At a suggestion and presentation of a riend, I have used one bottle of Professo Hertz's Hair Restorative, "Xanthine," I has accomplished in a very brief time, r a without any perceptible unpleasant or Injurious effect, all that is claimed for it as a restorer of the natural color of hair, turning gray.
